Thank you Steve. Fully understood about other environmental work that may be needed besides SW sampling.

Subject: Hennis Access Agreement - Signed

Richard and Paula,

Attached is a faxed copy of the signed access agreement. I requested an original signature copy to be mailed – not sure we need it. My explanation to him regarding the additional properties was that Paula had identified locations that we need to enter during surface water sampling. Also, he asked about needing to drill wells, and I stated that at this time there were no plans to do so. If for whatever reason EPA or others plan to do more, then we need to let him know this and work out the details.

For now, we're good to go with the work.

Steve
